Ramandeep Kaur

//OBJECTIVE

Seeking a challenging Frontend Developer position in a dynamic and innovative environment, utilizing my expertise in HTML, CSS, JavaScript, and other front-end technologies to design, develop, and deliver high-quality, visually appealing, and user-friendly websites and web applications that meet business requirements and enhance user experience.

//EXPERIENCE

Web Design
HTML, CSS, BOOTSTRAP, JAVASCRIPT, ADOBE PHOTOSHOP, ADOBE XD

Scurite (NOIDA)
(May 2022 - JAN 2023)

- Conceptualizing and creating website designs that meet business and user requirements
- Developing wireframes, prototypes, and mockups to showcase design ideas
- Writing clean, well-structured, and semantic HTML, CSS, and JavaScript code
- Ensuring website compatibility across different browsers and devices
- Implementing responsive design to ensure optimal user experience on different screen sizes

//EDUCATION

Software Development // B.Voc
BBK Dav College For Women, Amritsar
(2019-2022)
Percentage : 84%

IELTS
IDP (2022)
6.0 Each

//Projects (5+)

Pizza Shop (PHP/MySQL/HTML/CSS)
A PHP & MySQL based pizza shop project would involve building a dynamic website where users can place orders for pizza. The website would allow users to select different toppings, crust type, and size of the pizza. The user's order would then be stored in a database (MySQL) and an order confirmation page would be generated.

E-Commerce Web UI
An e-commerce UI design using HTML, CSS, and Bootstrap would involve creating a visually appealing and user-friendly interface for an online store
